

PROTHERM™ specializes in building ovens for Powder Coating Applications. From simple heater arrays to complete conveyORIZED ovens for appliance blank lines, PROTHERM™ can complete a project from product analysis and testing, to design, to final build, and we provide installation and start-up support.

We have successfully completed projects heating heavy weldments with cross sections within the weldment ranging from 12ga. to 2" to 100% IR cure of appliance blanks. We work with end customers as well as systems intergrations.

The "Heart" of our oven systems is the **PROTHERM™ Series FS Heater** which has high efficiency, long life and reasonable cost.
